

About the Programme

"Harness the power of mathematical and statistical principles across diverse fields including modeling, computing, optimization, geometry, and physical sciences."

Our programme equips students with cutting-edge mathematical methods and computer programming skills essential for the evolving landscape of the Industrial Revolution 4.0.

In addition to core curriculum, students have the flexibility to choose from a wide array of elective courses, tailoring their education to specific interests and career goals.

Integrated SAS modules ensure graduates gain industry-recognized certification, opening doors to a wide array of career opportunities in data science and beyond.

SPECIFIC ADMISSION REQUIREMENT

1. STPM (SCIENCE STREAM):

Obtained at least Grade C (NGMP 2.00) at STPM level in the following subjects: Mathematics (T)/Mathematics (M).

2. MATRICULATION/FOUNDATION (SCIENCE):

Obtained at least Grade C (2.00) at Matriculation/Foundation level in the following subjects: Mathematics/Engineering Mathematics.

3. DIPLOMA/EQUIVALENT:

- Obtained a Diploma in the related field to the applied course;
- OR
- Have other qualifications recognized as equivalent and certified by the University Senate.

4. APEL ROUTE (A):

Passed the Accreditation of Prior Experiential Learning (APEL) assessment conducted by MQA in related fields to be eligible for admission to Bachelor's level programs (Level 6, Malaysian Qualifications Framework)

** candidate must furnish the APEL Certificate from MQA before the admission process.*

- 5. Obtained at least Band 3 in the Malaysian University English Test (MUET)

CAREER OPPORTUNITIES

- Research Officer
- Science Officer
- Data Analyst
- Computer Information System Manager
- System Manager
- Designer/Modeller
- Mathematics Teachers/Lecturers
- Database Administrator
- Logistician/ Logistics Specialist
- Operations Support Specialist
- Computational Analyst
- Forecast Analyst
- Data Architect
- Business Intelligence developer
- Statistician
