# PRAKATA

Buku panduan ini disediakan dengan harapan ia dapat diguna dan dimanfaatkan oleh para pelajar Fakulti Sains Komputer dan Matematik (FSKM), Universiti Malaysia Terengganu yang akan menjalani Komponen Industri (KI) 2u2i. Buku ini merupakan satu panduan kepada para pelajar bagi memahami prosedur yang perlu diikuti ketika menjalani Komponen Industri (KI) 2u2i.

Setinggi-tinggi penghargaan diucapkan kepada pihak pengurusan tertinggi FSKM, Jawatankuasa Latihan Industri (LI) FSKM, para pensyarah dan semua pihak yang terlibat secara langsung atau tidak langsung dalam menghasilkan Buku Panduan Komponen Industri (KI) 2u2i FSKM.

# BAB 1

# PENGENALAN

## 1.1 Pengenalan

Komponen Industri (KI) 2u2i merupakan kursus yang memberi peluang kepada pelajar Universiti Malaysia Terengganu (UMT) khususnya di Fakulti Sains Komputer dan Matematik (FSKM) untuk mendapat pendedahan kerjaya bagi satu tempoh yang ditetapkan, iaitu selama setahun. Untuk tempoh ini, pelajar akan ditempatkan di organisasi yang telah dikenalpasti bersesuaian dengan bidang pengajian yang diikuti di universiti.

## 1.2 OBJEKTIF

01

### **PENDEDAHAN SUASANA KERJA**

Mendedahkan pelajar kepada pengalaman dan suasana kerja sebenar di agensi luar berkaitan dengan bidang pengkhususan program pengajian.

02

### **KEMAHIRAN INSANIAH**

Memantapkan kemahiran insaniah pelajar yang dapat membantu meningkatkan kebolehpasaran mereka.

03

### **PEMBENTUKAN SAHSIAH**

Membentuk sahsiah pelajar untuk memenuhi keperluan pasaran kerja.

04

### **KEMAHIRAN TEKNIKAL**

Meningkatkan kemahiran teknikal mengikut keperluan semasa di industri.

05

### **HUBUNGAN UMT-INDUSTRI**

Menjalin/mengeratkan hubungan antara universiti/fakulti dengan agensi luar.

# 1.3 HASIL PEMBELAJARAN

1

## PENGALAMAN DAN KEMAHIRAN

Menimba pengalaman dan kemahiran asas pekerjaan yang berkait dengan bidang pengkhususan program pengajian.

2

## APLIKASI TEORI

Mengaplikasikan teori yang dipelajari di dalam kuliah kepada realiti alam pekerjaan.

3

## HUBUNGAN AHLI/KUMPULAN PROFESIONAL

Menjalin dan mengekalkan hubungan dengan ahli/kumpulan profesional dalam bidang pengkhususan program pengajian .

4

## NILAI ETIKA PROFESIONAL

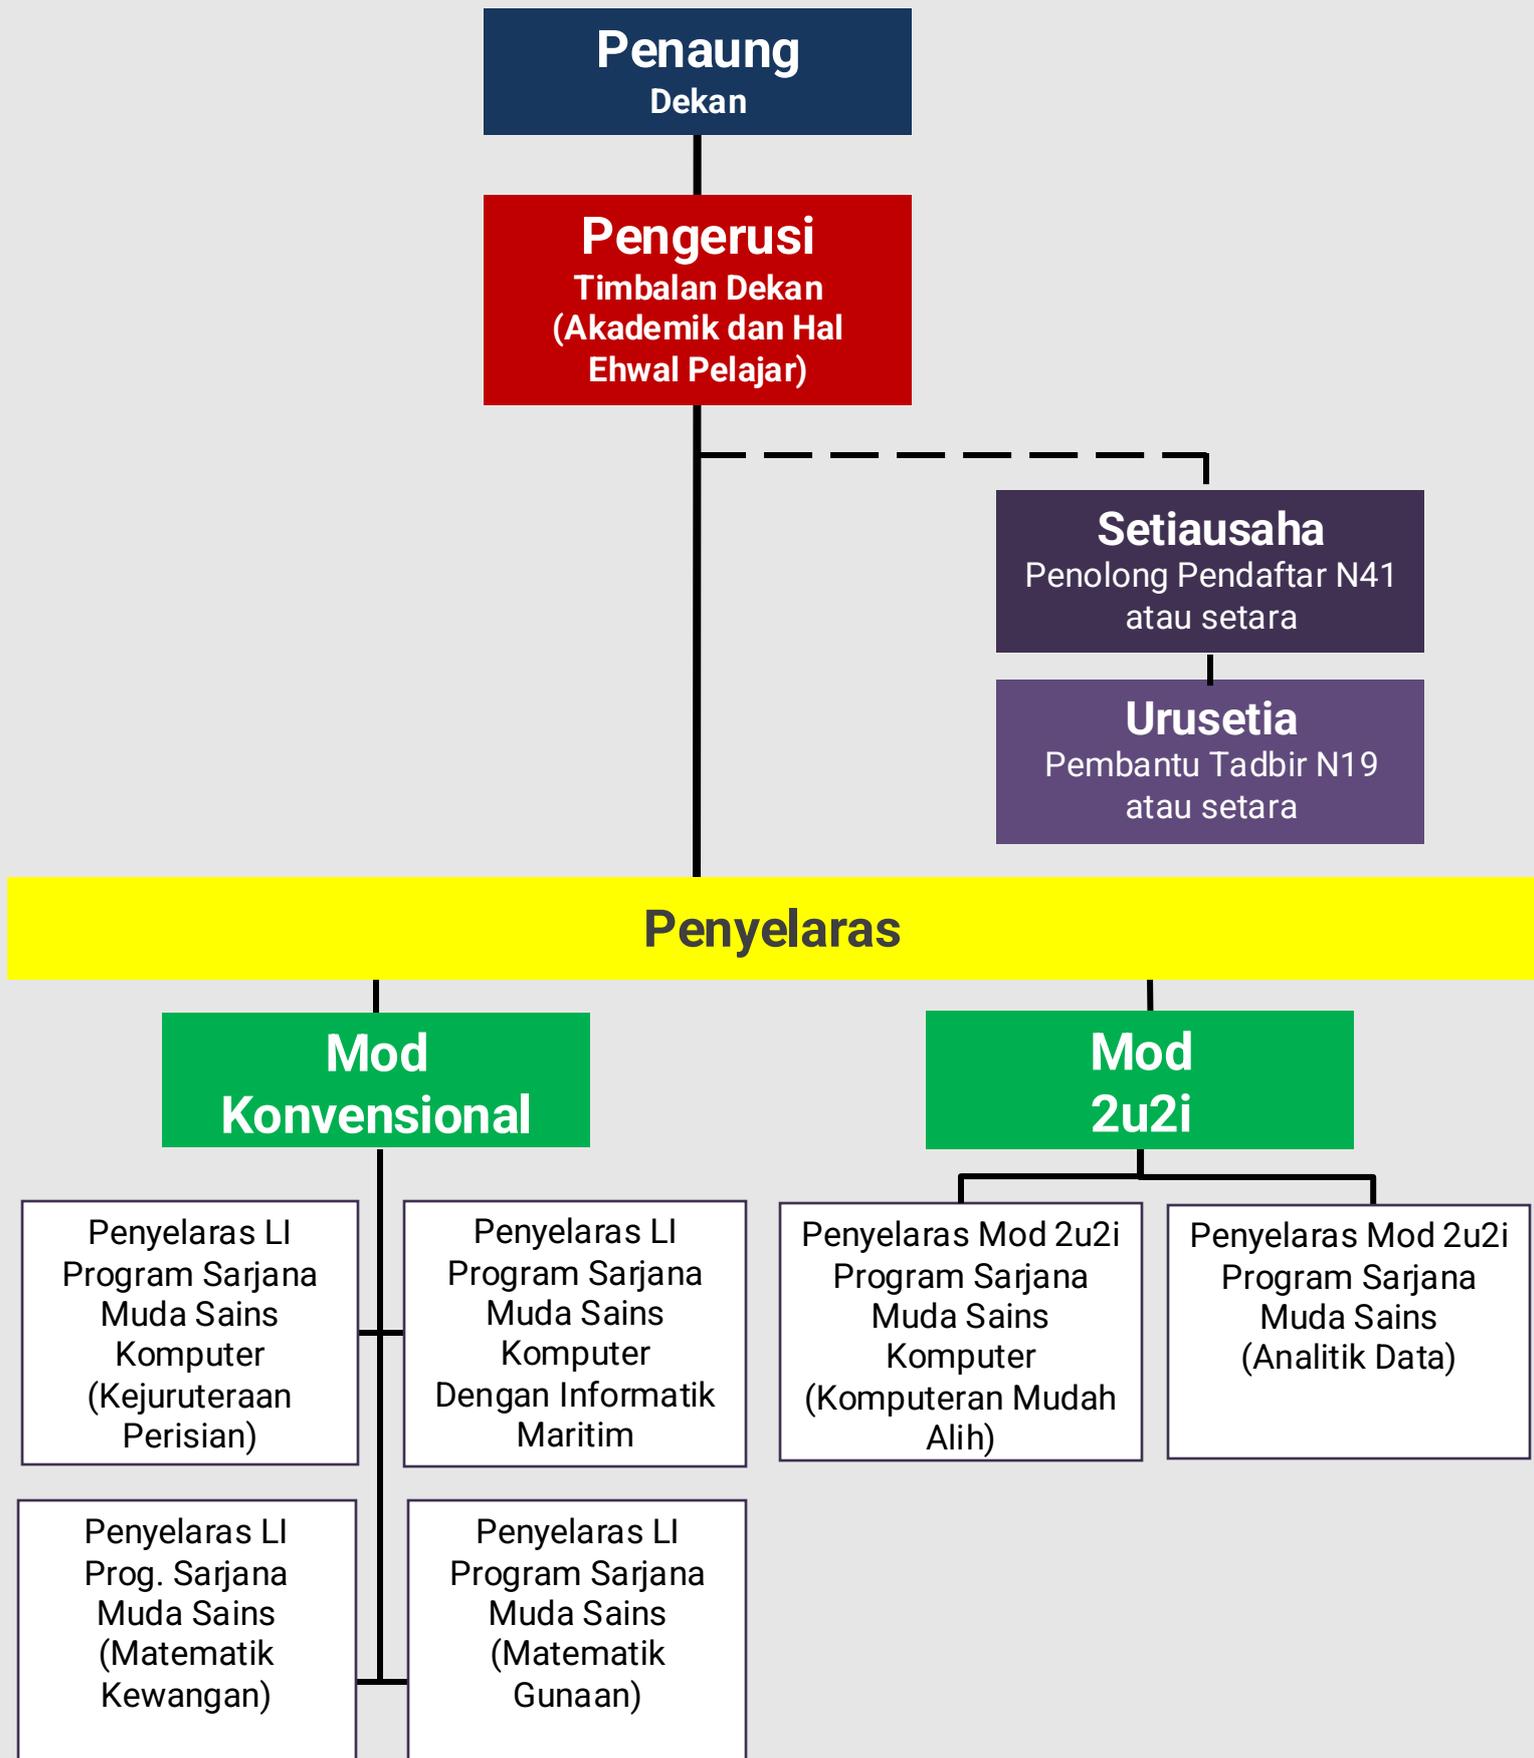

Memahami nilai etika profesional dalam bidang masing-masing.

5

## PELUANG PEKERJAAN

Menunjukkan kebolehan dalam pekerjaan dan seterusnya meningkatkan peluang untuk mendapat pekerjaan apabila bergraduat.

# 1.4 JAWATANKUASA LATIHAN INDUSTRI, FSKM

# 1.5 PERANAN DAN TANGGUNGJAWAB JAWATANKUASA

**01**

Memastikan pelaksanaan Komponen Industri (KI) 2u2i mengikut garis panduan fakulti dan universiti atau seperti yang ditetapkan oleh badan profesional program.

**05**

Memberi penerangan dan taklimat kepada pelajar sebelum mereka menjalani Komponen Industri (KI) 2u2i.

**02**

Mengenalpasti dan menentukan kesesuaian agensi untuk penempatan Komponen Industri (KI) 2u2i pelajar.

**06**

Melaporkan keputusan Mesyuarat Jawatankuasa Latihan Industri (LI) FSKM kepada fakulti.

**03**

Meluluskan pelantikan Penyelia UMT mengikut program yang dicalonkan oleh Penyelaras Mod 2u2i program.

**07**

Menguruskan pemarkahan Komponen Industri (KI) 2u2i.

**04**

Menyelaras pemilihan tempat, penempatan pelajar, proses penyeliaan dan pemantauan Komponen Industri (KI) 2u2i.

**08**

Mengadakan Mesyuarat Jawatankuasa sekurang-kurangnya 2 kali satu semester.

# BAB 2

# POLISI & PROSEDUR

## 2.1 Pengenalan

Setiap pelajar perlu mematuhi semua polisi dan prosedur kursus Komponen Industri (KI) 2u2i tertakluk kepada peraturan semasa.

## 2.2 STATUS KOMPONEN INDUSTRI 2u2i/JAM KREDIT/TEMPOH/PENEMPATAN

### STATUS KURSUS KOMPONEN INDUSTRI

Setiap pelajar perlu lulus Komponen Industri (KI) 2u2i sebagai syarat wajib untuk bergraduasi.

### WAJIB

### TEMPOH

32 Jam Kredit  
2 SEMESTER  
1 TAHUN

### RAKAN INDUSTRI

### SEMESTER 6 & 7

### PENEMPATAN PELAJAR

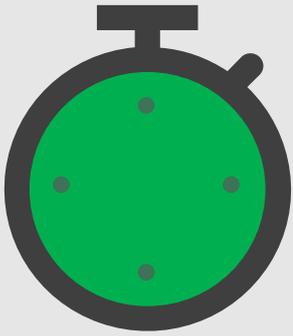

Pemilihan dibuat oleh rakan industri atau cadangan daripada Jawatankuasa Latihan Industri FSKM.

Tempat yang dapat membantu pelajar mengaplikasikan pengetahuan serta membangunkan kemahiran pelajar.

### PENDAFTARAN

Pelajar wajib mendaftar Komponen Industri (KI) 2u2i dalam tempoh pra-pendaftaran pada semester sebelumnya.

## 2.3 KEHADIRAN & CUTI

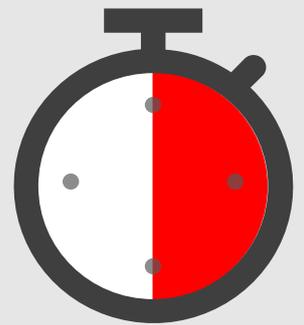

### KEHADIRAN PENUH

- Hadir kursus Komponen Industri (KI) 2u2i sepenuh masa.
- Tertakluk kepada peraturan-peraturan di organisasi, institusi atau agensi penempatan yang terlibat.
- Kebenaran perlu diperolehi daripada organisasi dan dimaklumkan kepada Penyelaras Mod 2u2i.

### GAGAL

- Pelajar yang tidak menghadiri kursus Komponen Industri 2u2i melebihi 12 HARI (bagi tempoh penempatan selama setahun (12 bulan)) ATAU tertakluk kepada polisi yang ditetapkan oleh Jabatan Sumber Manusia organisasi, tanpa sebarang bukti perubatan disifatkan sebagai tidak memenuhi syarat atau GAGAL dan PERLU MENGULANG KURSUS KOMPONEN INDUSTRI 2u2i pada semester tersebut.

### PENANGGUHAN

- Pelajar yang mengalami masalah kesihatan dan tidak dapat menjalani kursus Komponen Industri 2u2i dinasihatkan supaya memohon penangguhan, tertakluk kepada persetujuan organisasi dan UMT, sebelum melapor diri di organisasi.
- Fakulti dengan budi bicara organisasi juga boleh bertindak menangguh kursus Komponen Industri 2u2i seseorang pelajar (bagi kes-kes tertentu seperti kemalangan).

### SAKIT/KES KECEMASAN

- Hubungi pihak organisasi dengan segera menerusi telefon atau menghantar mesej (sakit/kecemasan seperti sampai lewat kerana sesuatu sebab yang tidak dapat dielakkan).
- Serahkan surat cuti sakit (medical certificate/MC) yang diperolehi daripada hospital/klinik kerajaan/klinik panel kepada pihak organisasi.

## 2.4 PENYELIAAN/PENILAIAN/PERTUKARAN TEMPAT/ LARANGAN TERHADAP PLAGIARISME/INSURANS

### PENYELIAAN

Penyelia UMT mestilah terdiri daripada pegawai akademik UMT yang mempunyai kepakaran dalam bidang berkenaan. Penyelia UMT perlu melakukan penyeliaan dan pemantauan sekurang-kurangnya 2 kali sepanjang tempoh KI 2u2i (tertakluk kepada keadaan semasa).

Jurulatih Industri mestilah terdiri daripada staf yang dilantik oleh pihak organisasi yang mempunyai kepakaran dalam bidang berkenaan dan memenuhi syarat yang ditetapkan oleh garis panduan 2u2i.

### PERTUKARAN PENEMPATAN

Pelajar **TIDAK DIBENARKAN** menukar penempatan. Sekiranya pelajar didapati menukar penempatan tanpa pengetahuan dan kelulusan, pelajar disifatkan tidak mematuhi peraturan dan **GAGAL**. Pelajar perlu **MENGULANG KURSUS KI 2U2I SEPENUHNYA**.

### INSURANS

Semua pelajar yang mengikuti KI 2u2i adalah dilindungi oleh Insurans Berkelompok UMT. Jika pelajar terlibat dengan tugas KI 2u2i yang melibatkan perjalanan ke luar negara, pelajar bertanggungjawab sepenuhnya untuk mendapatkan insurans yang bersesuaian bagi menjamin kebajikan pelajar, terutama kos rawatan perubatan.

### PENILAIAN

Penilaian KI 2u2i adalah berdasarkan laporan Penyelia UMT, laporan Jurulatih Industri, pembentangan, hasil projek, buku log, laporan akhir dan lain-lain aspek penilaian yang telah ditetapkan oleh pihak fakulti.

Pengredan adalah berdasarkan gred abjad dan mata nilai seperti yang ditetapkan di dalam Peraturan Akademik UMT.

### LARANGAN TERHADAP PLAGIARISME

Pelajar adalah tertakluk kepada Akta Universiti dan Kolej Universiti 1971, Kaedah-kaedah Universiti Malaysia Terengganu (Tatatertib Pelajar-Pelajar).

# BAB 3

# GARIS PANDUAN

## 3.1 Pengenalan

Garis Panduan Komponen Industri (KI) 2u2i dirangka agar proses penempatan pelajar di organisasi dan kaedah penyeliaan dan penilaian Komponen Industri (KI) 2u2i ini berjalan lancar.

## 3.2 CIRI-CIRI UMUM ORGANISASI

### BILANGAN STAF

Organisasi mempunyai lebih daripada 10 orang staf dan berdaya saing.

### PERKAITAN DENGAN BIDANG PENGAJIAN PELAJAR

Syarikat swasta, agensi kerajaan atau badan berkanun yang mempunyai kaitan dengan bidang pengajian yang diikuti oleh pelajar.

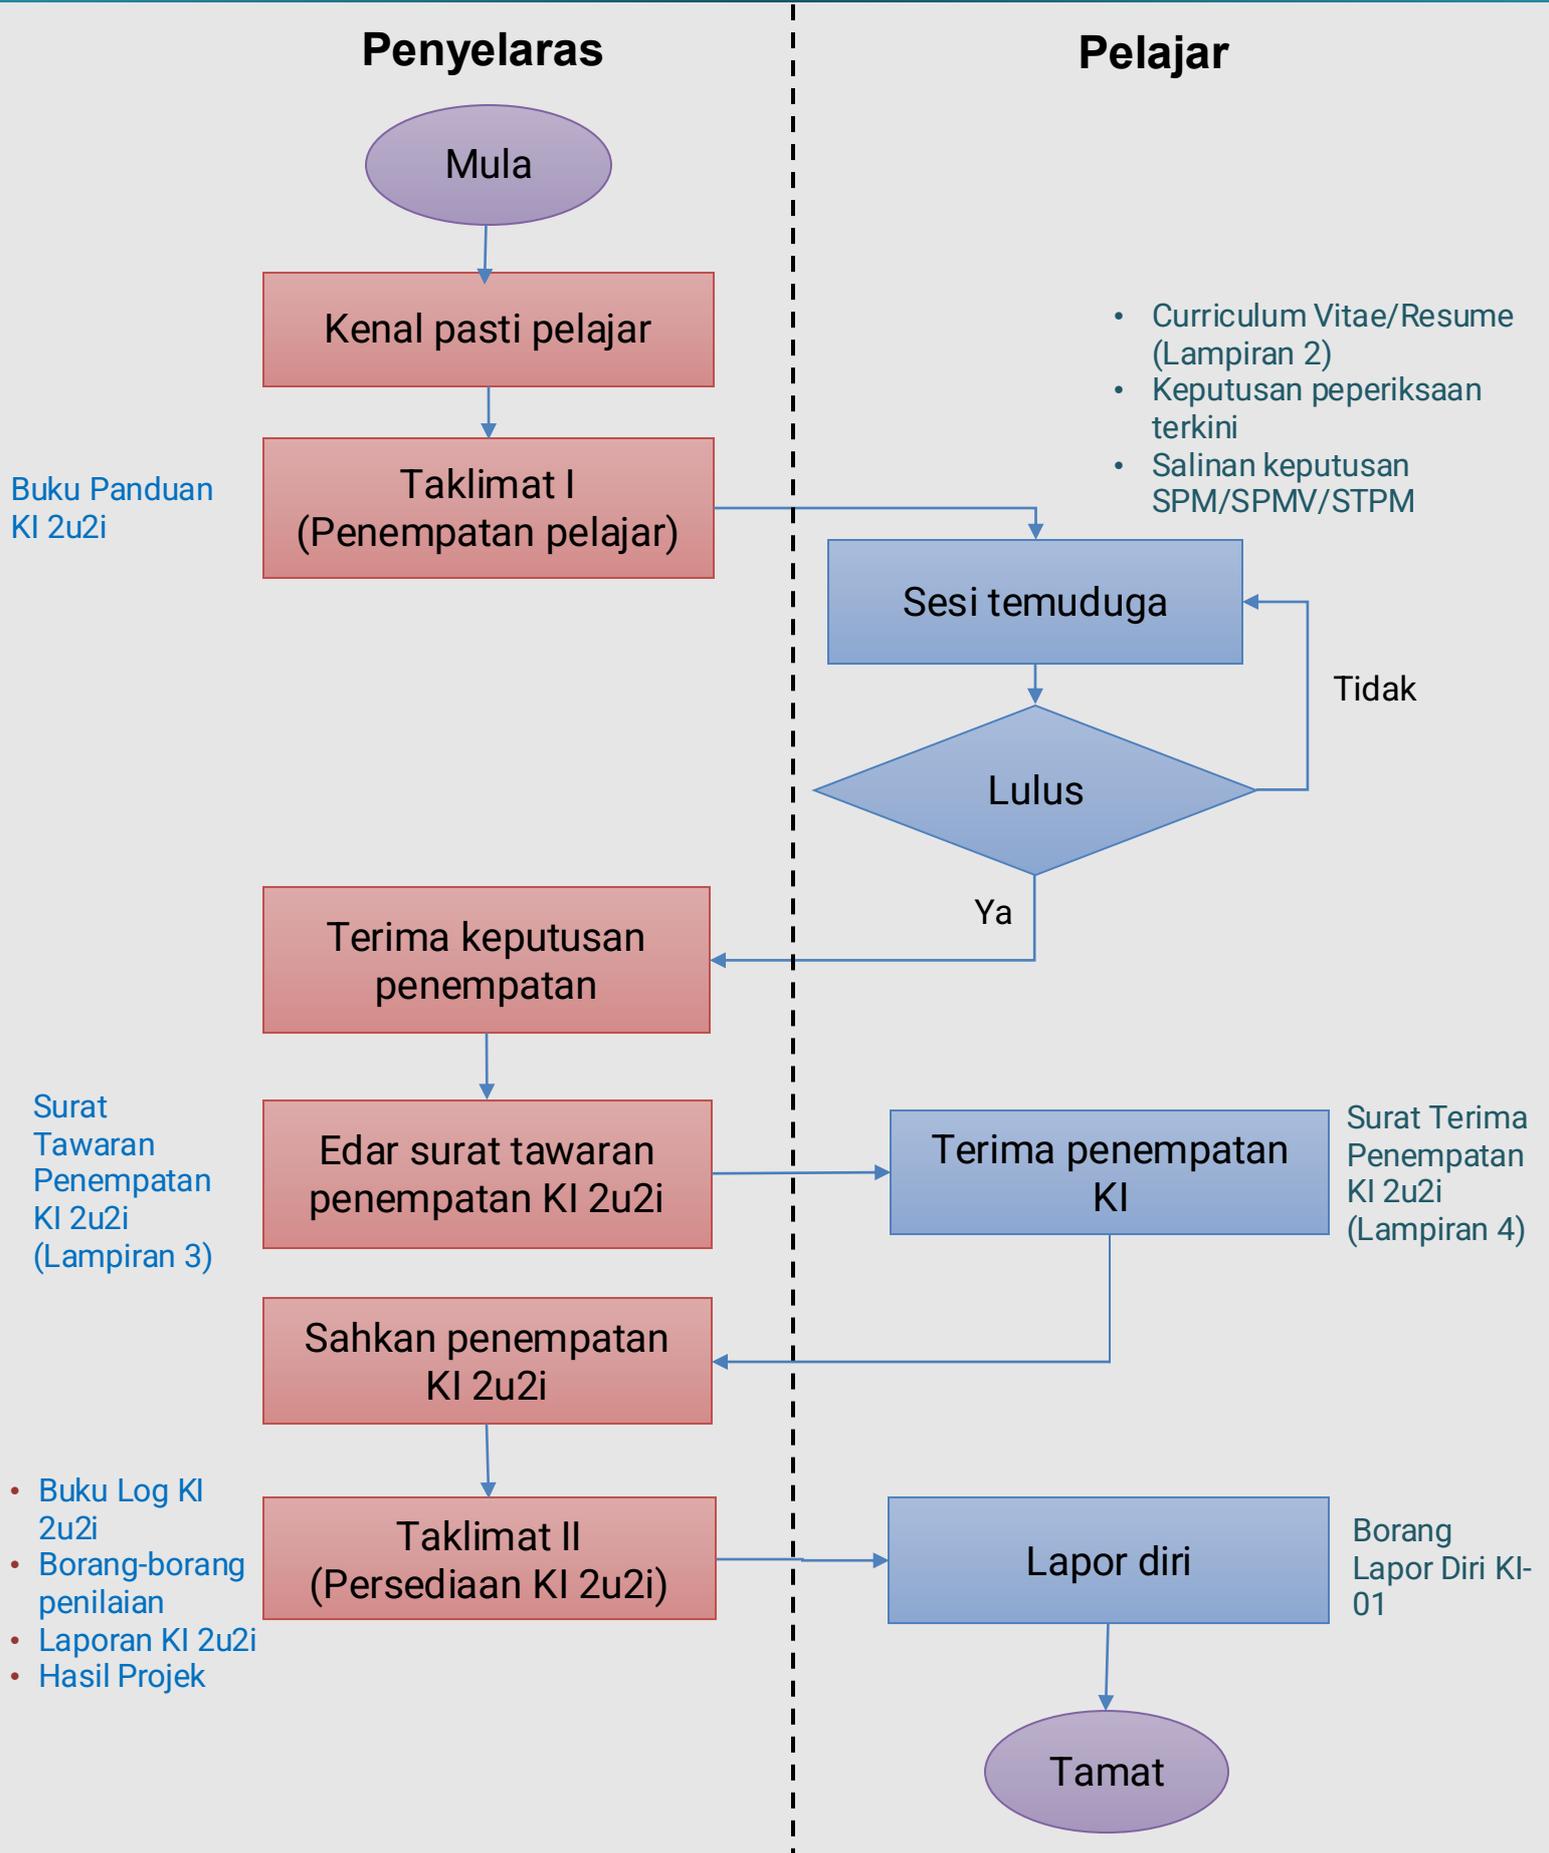

### KELULUSAN UMT

Syarikat swasta, agensi kerajaan atau badan berkanun yang mempunyai kerjasama persefahaman MoU dengan UMT.

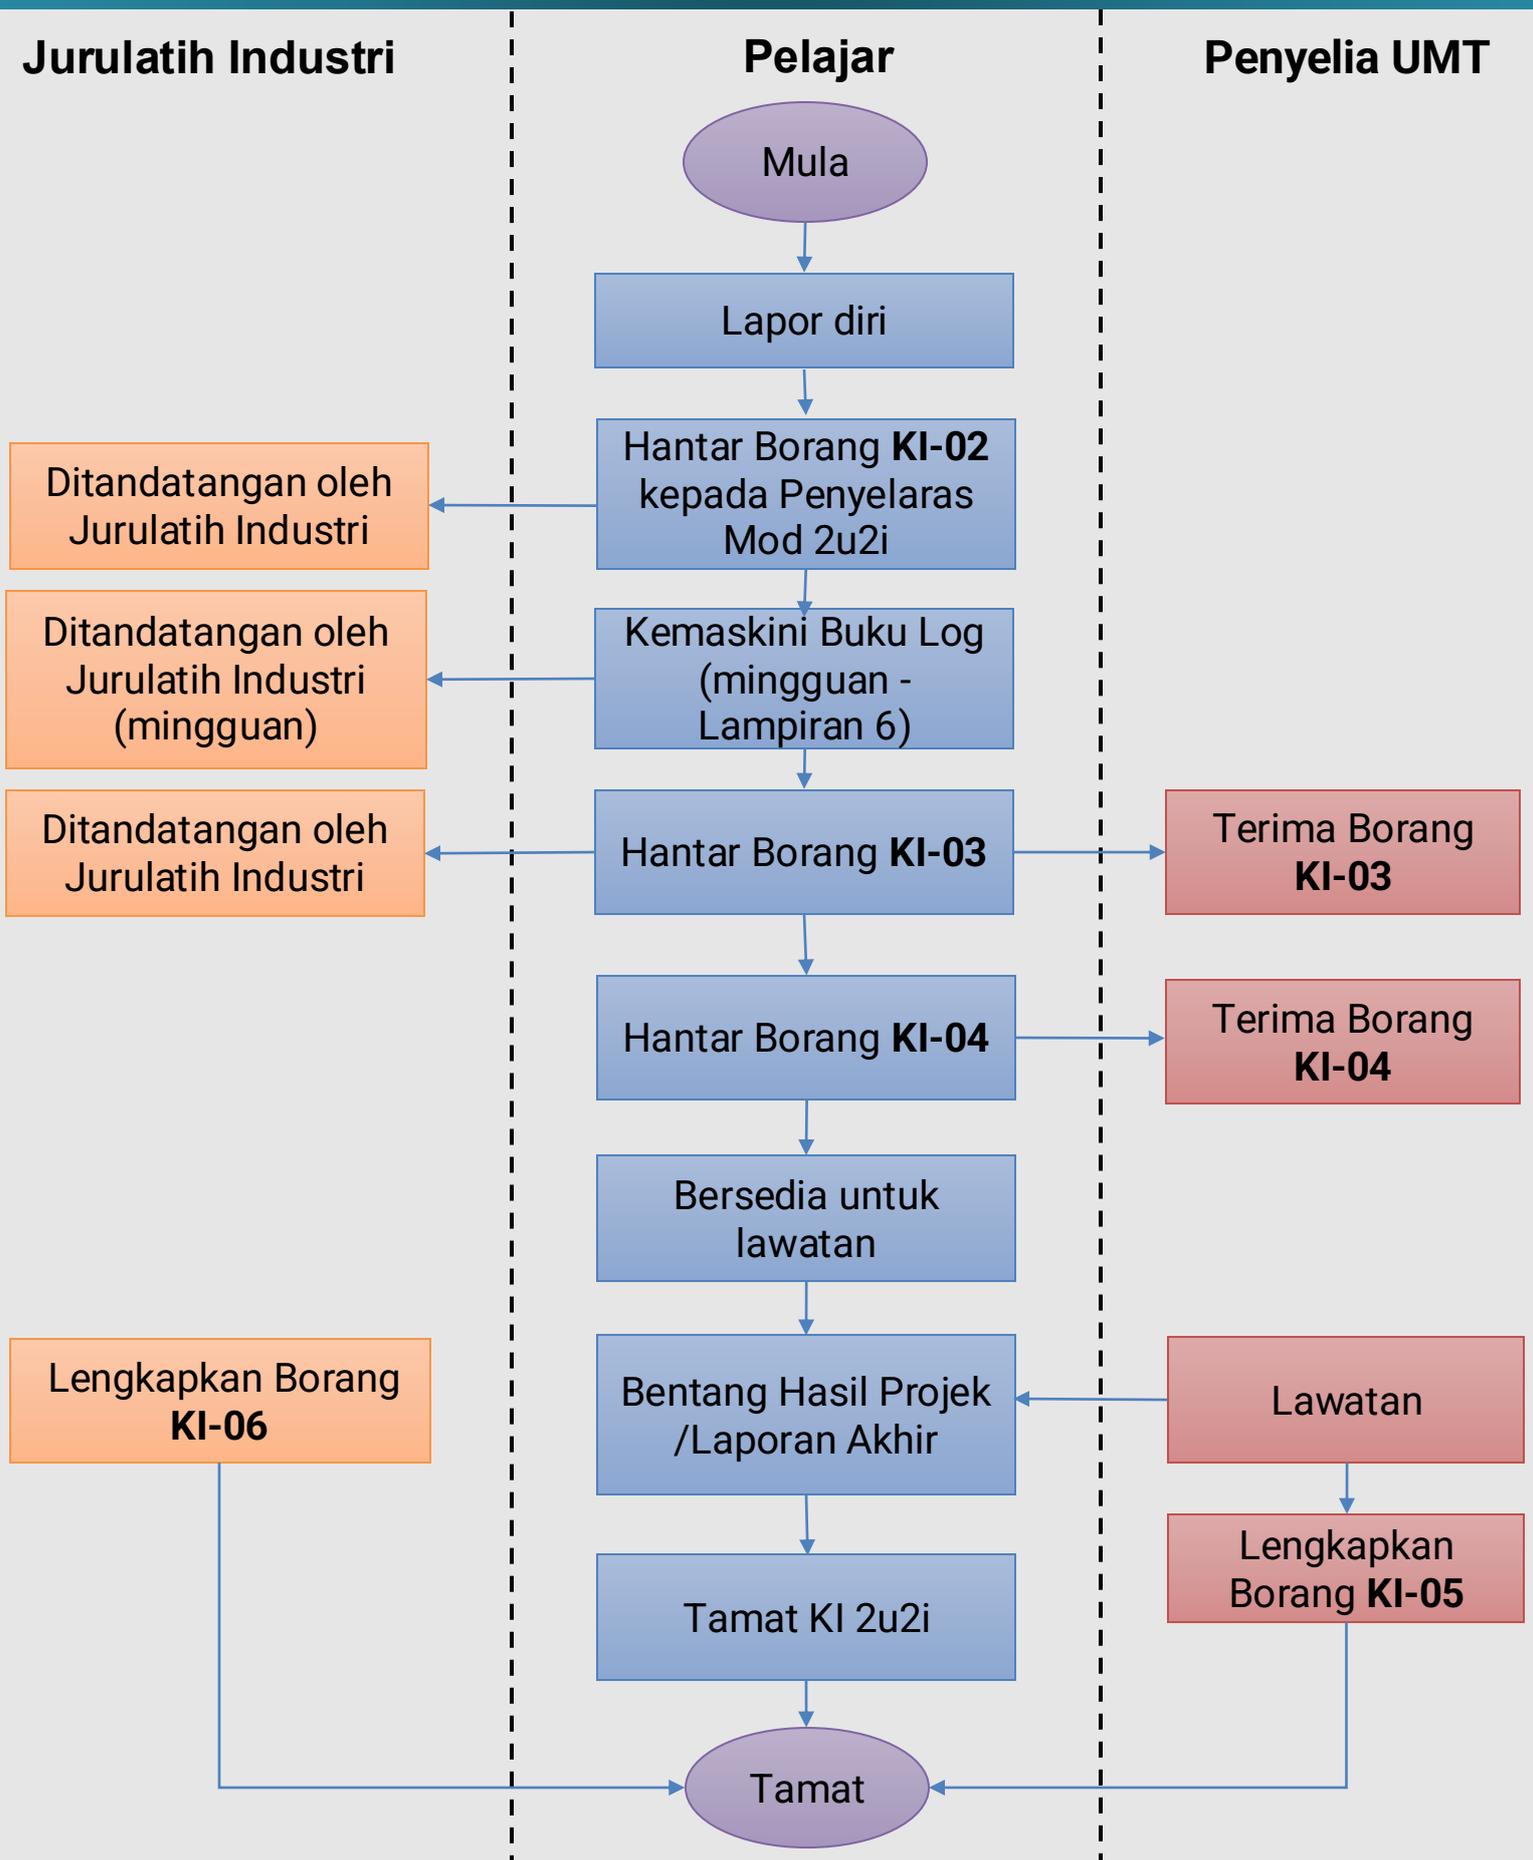

### KEPAKARAN

Mempunyai staf yang berkemahiran dalam bidang berkaitan dan boleh menjadi rujukan pelajar semasa Komponen Industri 2u2i.

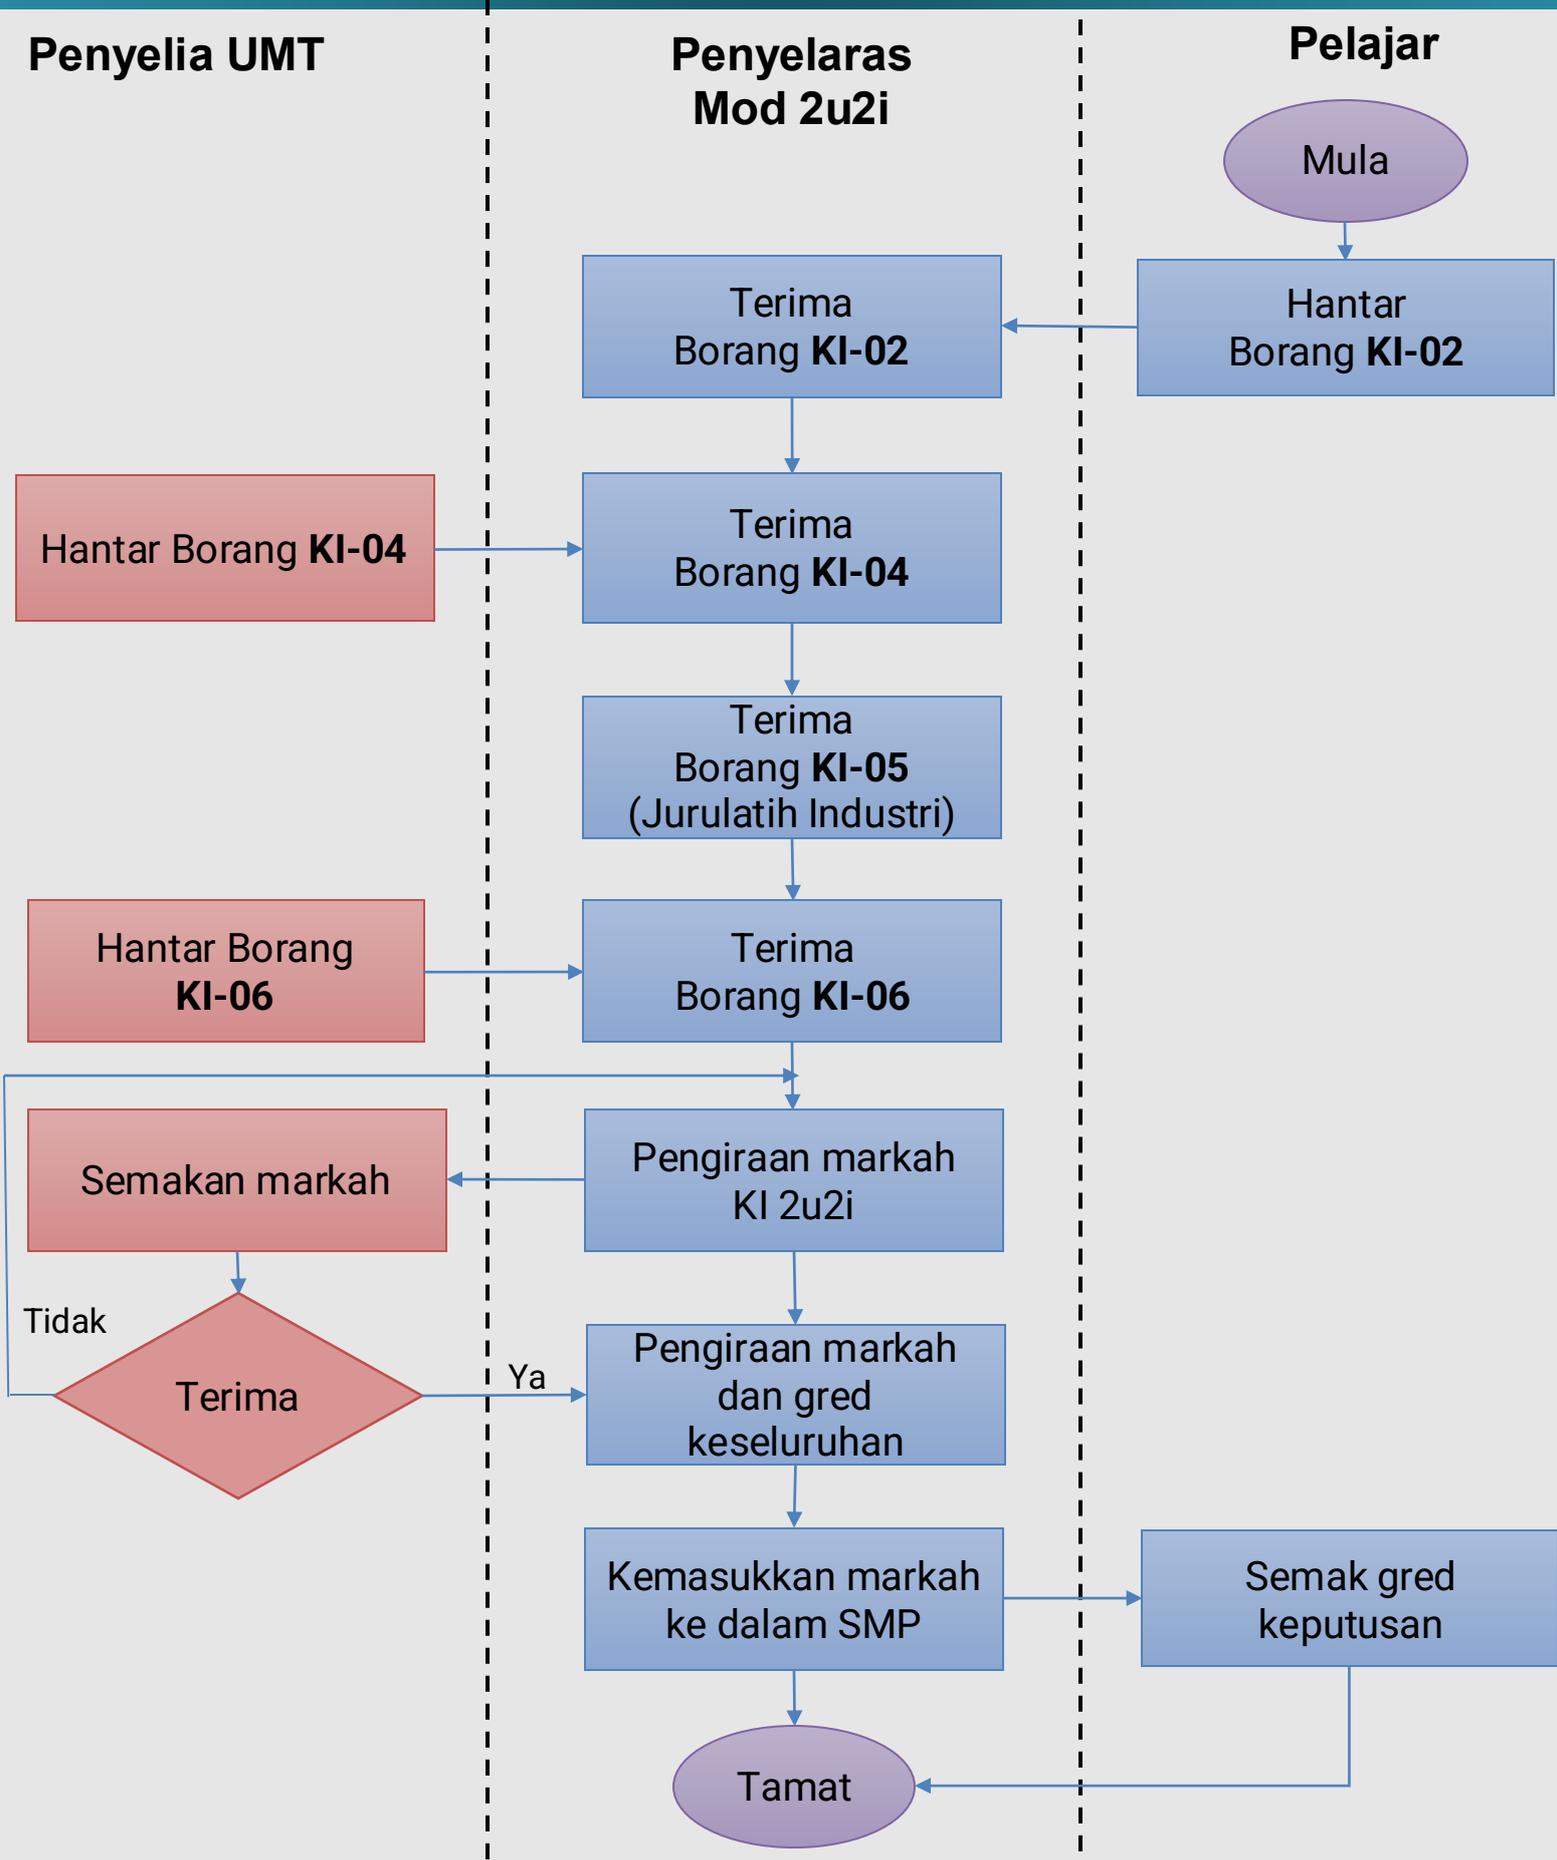

# 3.3 PROSES PENEMPATAN KOMPONEN INDUSTRI 2u2i

# 3.4 PROSES PENYELIAAN DAN PENILAIAN KI 2u2i (PENYELIA UMT DAN JURULATIH INDUSTRI)

# 3.5 PROSES PENYELIAAN DAN PENILAIAN KI 2u2i (PENYELIA UMT DAN PENYELARAS MOD 2u2i)

# 3.6 PROSES PENYELIAAN DAN PENILAIAN KOMPONEN INDUSTRI 2u2i (BORANG)

**Borang KI-06**  
(Borang Penilaian Buku Log & Laporan Akhir)

Penyelaras Mod 2u2i

# BAB 4

# PERANAN & TANGGUNGJAWAB

## 4.1 Pengenalan

Setiap individu yang terlibat secara langsung dalam Komponen Industri (KI) 2u2i seperti Penyelaras Mod 2u2i Program, Penyelia UMT, Jurulatih Industri dan pelajar mempunyai peranan dan tanggungjawab masing-masing bagi memastikan proses berkaitan berjalan lancar.

## 4.2 PENYELARAS MOD PENGAJIAN 2u2i

## 4.3 PENYELIA UMT

Penyelia UMT mestilah terdiri daripada pensyarah yang dilantik oleh FSKM

## 4.4 JURULATIH INDUSTRI

### Lapor Masalah

Memaklumkan kepada Penyelaras Mod 2u2i Program mengenai sebarang masalah semasa pelajar menjalani latihan di organisasi.

### Penempatan dan Tugas Pelajar

Menentukan deskripsi tugas pelajar dengan memastikan skop tugas pelajar adalah lebih berfokuskan kepada bidang pengkhususan pelajar.

### Pembentangan Pelajar

Menghadiri pembentangan hasil projek pelajar.

### Tugasan / Projek

Merangka tugasan/projek yang bersesuaian (KI-03) kepada pelajar.

### Penilaian

Membuat penilaian ke atas prestasi dan hasil projek pelajar dengan menggunakan Borang **KI-06 (Lampiran 7)** dan mengembalikannya kepada Penyelia UMT.

### Semak Log Aktiviti

Menyemak log aktiviti pelajar.

### Tunjuk ajar/ Pemantauan

Memberi tunjuk ajar dan bimbingan kepada pelajar dan maklumbalas yang sesuai secara dinamik.

Memantau tugasan yang dilaksanakan oleh pelajar (KI-04).

## 4.5 PELAJAR

## 4.5.1 SEBELUM MENJALANI KI 2u2i

### DAFTAR KURSUS

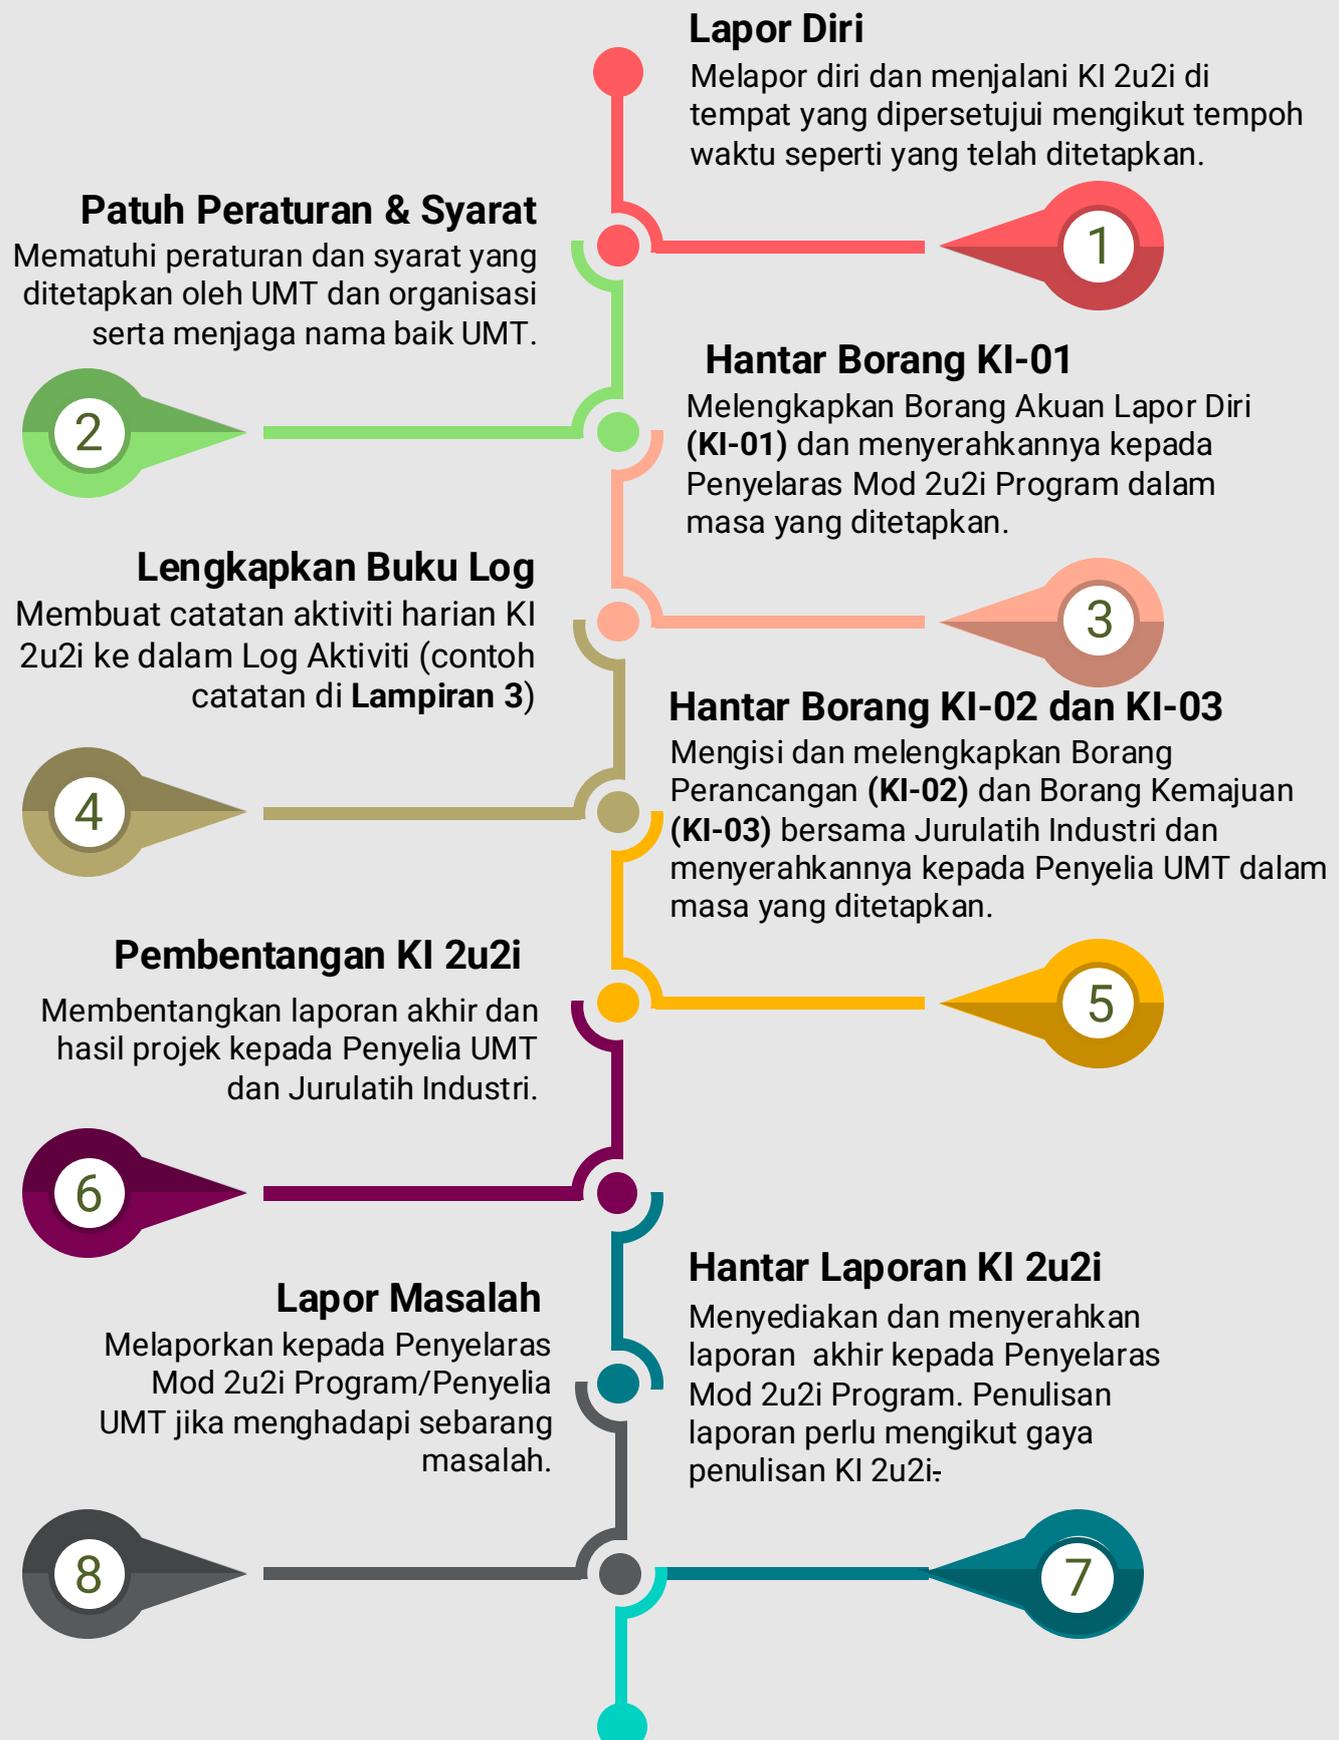

Mendaftar kursus semasa proses pra-pendaftaran.

### LENGKAPKAN PROSES PENEMPATAN

Melengkapkan proses penempatan kursus Komponen Industri 2u2i.

## 4.5.2 SEMASA MENJALANI KI 2u2i

## 4.5.3 SELEPAS MENJALANI KI 2u2i

### **Laporan Penilaian Komponen Industri 2u2i**

Memastikan Jurulatih Industri di organisasi melengkapkan Borang Penilaian Jurulatih Industri (**KI-05**) dan diserahkan kepada Penyelaras Mod 2u2i Program pada masa yang ditetapkan.

### **Hantar Semua Dokumen**

Menghantar semua dokumen yang berkaitan kepada Penyelaras Mod 2u2i Program mengikut waktu yang ditetapkan.

# LAMPIRAN

## Pengenalan

Lampiran yang diperlukan dan disediakan untuk Komponen Industri 2u2i bagi semua pihak yang terlibat iaitu Penyelaras Mod 2u2i Program, Penyelia UMT, Jurulatih Industri dan pelajar

## CONTOH CURICULUM VITAE (CV)

YOUR NAME.

• matricnumber@umt.edu.my

### Summary

A dynamic individual who likes to work and learn through the challenges of daily work. Like to work by objectives, with multidisciplinary teams and participate in the decision making. Can work under pressure, and independently if needed. My skills were complemented by a strong sense of team commitment, solid work ethic, eagerness to learn, and passion for improving.

### Work experience

2017-03 - 2017-06

Student Helper

*Silicon Valley Power*

- Reviewed engineers drawings for errors.
- Created design for a trash/safety rack.
- Used Maximo to create work orders.
- Inventoried pipe system in dams for replacement of old pipes.
- Inspected concrete for two pours.

2016-06 - 2017-02

Volunteer Tutor

*Serving Orphans Worldwide*

- Assisted in teaching mathematics to students aged 5 to 12.
- Worked effectively with students with diverse learning needs.
- Coordinated with the supervisors at the orphanage to organize fun activities to do with the children during the weekends.
- Taught theories of addition, subtractions, multiplication, division to younger students and concepts of patterns, pre-algebra, fractions and basic geometry to older students.

### Education

2020 - Current

Bachelor of Applied Science in Maritime Technology

*University Malaysia Terengganu*

### Skills

AutoCAD

Microstation

Microsoft Word

Microsoft Excel

Microsoft Access

Microsoft PowerPoint

### Hobbies

- Painting

**Bujukan Kami :** UMT/FSKM/SMSK (KMA)/2u2i/

**Tarikh :** 29 Oktober 2024

Mrs Suzana Nur Izzati Sabaruddin (Matric No: 558185)  
Bachelor of Computer Science (Mobile Computing) with Honours,  
Universiti Malaysia Terengganu,  
21030 Kuala Nerus, Terengganu.

Dear Mrs,

#### 2U2I PROGRAM PLACEMENT OFFER AT MH NEXUS SDN BHD

We are pleased to inform you that has offered an industrial placement for the 2u2i program as a part of your continuing studies in the industrial environment. Your placement shall commence on 1 Mac 2022 and shall end on 26 Feb 2023. Subject to your acceptance of this offer, the general terms and conditions of your 2u2i placement with the company are set as below:

1. You are required to complete a 12-month 2u2i program at the industrial.
2. Your potential tasks and projects during the 2u2i placement will be determined by the industrial supervisor after discussion with the UMT 2u2i program committee for Bachelor of Computer Science (Mobile Computing) with Honours.
3. During 2u2i placement, you are required to register for 4 courses: CSM4908 - Industrial Project Management, CSM4918-Industrial Project Development, CSM4928-Integrated Industrial Project Management, and CSM4938-Integrated Industrial Project Development.
4. While onboard for the placement, you must adhere to all MH Nexus Sdn Bhd and Universiti Malaysia Terengganu (UMT) policies, rules, and laws.
5. Once you sign the acceptance letter, you will receive an offer letter from the employer for the 2u2i placement.
6. The 2u2i placement cannot be construed as part of the employment or an offer of employment with MH Nexus Sdn Bhd.

Please confirm your acceptance of the 2u2i placement in order to secure the placement and proceed for program before you finally graduated (Note: Use template letter for the acceptance purposes attached in this letter). If you have any questions, please feel free to contact your 2u2i program coordinator.

## RUBRIK PENILAIAN KURSUS CSM4993/CSM4908-I

### 2) WBL PROGRESS PRESENTATION – (Industry: 15%)

Rubrics	Score	Scoring Scale
Standards met consistently, and expectations exceeded	5	Excellent
Standards met often or frequently	4	Good
Standards met occasionally, and improvement needed	3	Moderate
Standards met minimum expectation	2	Weak
Standards are not met or seldomly met	1	Poor

#### PLO3 -> CLO2 (5%): Rubrics for Industry

Criteria	Weight	Weak (1 mark)	Moderate (2 marks)	Satisfactorily (3 marks)	Good (4 marks)	Excellent (5 Marks)	Total Marks (Max)
(1) Point out the objective and statement of work for each project task are elaborated and addressed clearly in line with the execution of the on-going project. (C4)	0.40						2.00
(2) The project progress breakdown presented meets the expectations in terms of timeliness and is explained in detail and in an innovative manner. (C4)	0.40						2.00
(3) The project issues and potential risks were briefly highlighted during the project execution, and the presenter managed to propose an alternative solution to resolve or mitigate the project impact. (C3)	0.20						1.00
<b>Total Points/ Marks</b>	<b>1.00</b>						<b>5.00</b>

#### PLO4 -> CLO3 (5%): Rubrics for Industry

Criteria	Weight	Weak (1 mark)	Moderate (2 marks)	Satisfactorily (3 marks)	Good (4 marks)	Excellent (5 Marks)	Total Marks (Max)
(1) Confidently explain in a fluent manner the project's progress and engage the audience in discussion or by raising questions. (A4).	0.40						2.00
(2) Prepare a short visual presentation of the current project tasks with a lot of data and information. (A4)	0.40						2.00
(3) Demonstrate a good understanding of the project and its related tasks in terms of the project's goals, detailed execution, and expectations during the question and answer session. (A3)	0.20						1.00
<b>Total Points/ Marks</b>	<b>1.00</b>						<b>5.00</b>

## RUBRIK PENILAIAN KURSUS CSM4996/CSM4938-I

### 4) PROJECT OUTPUT – (Industry: 30%, University: 10%)

Rubrics	Score	Scoring Scale
Standards met consistently, and expectations exceeded	5	Excellent
Standards met often or frequently	4	Good
Standards met occasionally, and improvement needed	3	Moderate
Standards met minimum expectation	2	Weak
Standards are not met or seldomly met	1	Poor

#### PLO2 -> CLO1 (15%): Rubrics for Industry

Criteria	Weight	Weak (1 mark)	Moderate (2 marks)	Satisfactorily ( 3 marks)	Good (4 marks)	Excellent (5 Marks)	Total Marks (Max)
(1) Constructs the applications or solutions based on the requirements stated. (P4)	1.00						5.00
(2) Display the capabilities to develop and support the continuous growth of the system based on task delegations and any new requirements. (P4)	0.50						2.50
(3) Manipulate appropriate methods or techniques to develop or accomplish the project tasks based on the guidelines from the industry's coach. (A4)	1.00						5.00
(4) Response with highly technical skills to transform the system requirements into a workable system or solutions. (P3)	0.50						2.50
<b>Total Points/ Marks</b>	<b>3.00</b>						<b>15.00</b>

#### PLO3 -> CLO2 (10%): Rubrics for Industry

Criteria	Weight	Weak (1 mark)	Moderate (2 marks)	Satisfactorily ( 3 marks)	Good (4 marks)	Excellent (5 Marks)	Total Marks (Max)
(1) Analyse the system requirements or tasks given comprehensively, clearly, and successfully transform them into the expected outputs. (C4)	0.50						2.50
(2) Illustrate the working model of the system or any task that emphasizes the system's functionalities. (C4)	0.50						2.50
(3) Demonstrate the capability to deliver project outputs that meet the minimum business requirements. (C3)	0.50						2.50
(4) Apply an appropriate methods or techniques to complete the development works or tasks in an efficient way. (C3)	0.50						2.50
<b>Total Points/ Marks</b>	<b>2.00</b>						<b>10.00</b>

## RUBRIK PENILAIAN KURSUS MDA4908-I

### Industrial Project 1 Evaluation Rubric

Mark	Description
5	Student's performance is outstanding in all aspects. Displays a high level of knowledge, skill, or understanding. Work is thorough, insightful, and of high quality.
4	Student's performance is above average. Demonstrates a solid understanding or skill level. Work is generally accurate and well-executed, with minor errors.
3	Student's performance meets the basic requirements of the criterion. Work is satisfactory but may lack depth or originality. Performance is adequate, but there is room for improvement.
2	Student's performance is below the expected standards. Work shows significant gaps in understanding or skill. Performance needs substantial improvement to meet basic expectations.
1	Student's performance does not meet the minimum requirements. Work is incomplete, incorrect, or demonstrates a lack of effort. Performance is unsatisfactory and fails to meet the basic criteria.

### Proposal Evaluation (10%) Industry Supervisor

CLO	Criteria	Description	Marks
CLO1	Relevance of Proposal to Industry Needs	How well the proposal aligns with current industry challenges and trends. A highly relevant proposal should address an existing problem with innovative solutions.	
CLO1	Feasibility of Implementation	The practicality of executing the proposed project within the given constraints, such as budget, timeline, and available technology.	
CLO1	Technical Soundness	The technical approach is clearly defined, well-structured, and logically developed based on industry best practices.	
CLO1	Use of Data Analytics	The extent to which data analytics techniques are incorporated to enhance decision-making, efficiency, or problem-solving.	
CLO1	Industry Standard Compliance	The proposal follows established industry standards and regulations to ensure safety, efficiency, and reliability.	

# LAMPIRAN 17

## RUBRIK PENILAIAN KURSUS MDA4908-I

### Progress Report 1 Evaluation (20%) Industry Supervisor

CLO	Criteria	Description	Marks
CLO2	Problem Identification	Identify suitable problem in the industry that can potentially be solved.	
CLO2	Data Identification	Identify related data that may be used for completing the project.	
CLO2	Data Handling	The efficiency of data collection and storage techniques used within the project.	
CLO2	Technical Problem-Solving Suggestion	The ability to suggest analysis and troubleshooting technical issues that arise during development.	
CLO2	Programming Suggestion	The efficiency, optimization, and functionality of the suggested programming approach in relation to the project requirements.	
CLO2	Application of Industrial Learning	How well industry knowledge and best practices have been proposed in the project implementation.	
CLO2	Project Progress	Tracks the project's development in relation to the initial plan, considering whether milestones are met as scheduled.	

# LAMPIRAN 17

## RUBRIK PENILAIAN KURSUS MDA4908-I

### Progress Report 2 Evaluation (20%) Industry Supervisor

CLO	Criteria	Description	Marks
CLO2	Data Cleaning	Manage to use appropriate method to clean up the data that was collected.	
CLO2	Data Processing	Assesses the ability to process the data, for example identification of missing data, handling of missing data, and transforming the data.	
CLO2	Adherence to Industry Practices	Checks if the project implementation follows industry-standard methodologies and frameworks.	
CLO2	Problem-Solving & Debugging	Assesses the ability to identify, troubleshoot, and resolve technical issues in a systematic manner.	
CLO2	Project Implementation Progress	Evaluates the progress of implementation based on the planned timeline and deliverables.	

# LAMPIRAN 17

## RUBRIK PENILAIAN KURSUS MDA4908-I

### Presentation Evaluation (10%) Industry Supervisor

CLO	Criteria	Description	Marks
CLO3	Technical Content & Depth	Measures the quality, depth, and relevance of technical content in the presentation.	
CLO3	Data Analytics Application	Assesses how effectively data analytics techniques are presented and utilized in the project.	
CLO3	Problem-Solving & Innovation	Evaluates the originality of problem-solving approaches and innovative solutions introduced.	
CLO3	Industry Relevance & Practicality	Determines how well the project aligns with real-world industry needs and applications.	
CLO3	Use of Visuals (Graphs, Diagrams, Tables, etc.)	Examines the quality, clarity, and usefulness of visual aids in enhancing understanding.	
CLO3	Handling of Q&A (Technical Responses)	Assesses the ability to respond confidently and accurately to technical questions.	

# LAMPIRAN 17

## RUBRIK PENILAIAN KURSUS MDA4908-I

### Project Documentation Evaluation (10%) Industry Supervisor

CLO	Criteria	Description	Marks
CLO5	Technical Accuracy	Ensures all technical aspects of the project are correctly documented and free from major errors.	
CLO5	Data Analytics Implementation	Assesses how well analytics techniques are integrated into the project documentation.	
CLO5	Methodology & Process Explanation	Evaluates the clarity and completeness of process explanations.	
CLO5	Results & Findings	Measures the depth and clarity of documented results and their interpretations.	
CLO5	Use of Industry Standards	Ensures compliance with best practices and industry regulations.	
CLO5	Project Impact & Industrial Application	Assesses the potential real-world impact and usability of the project.	

# LAMPIRAN 17

## RUBRIK PENILAIAN KURSUS MDA4908-I

### Proposal Evaluation (5%) UMT Supervisor

CLO	Criteria	Description	Marks
CLO3	Proposal Clarity	Measures how well the proposal is structured, whether it is written in a logical and coherent manner, and how easily the ideas can be understood.	
CLO3	Communication of Ideas	Assesses the ability to convey key concepts convincingly, ensuring that technical and business aspects are effectively presented.	
CLO4	Ethical Consideration	Evaluates if ethical aspects such as data privacy, fairness, and integrity have been considered in the project proposal.	

### Progress Report 1 Evaluation (5%) UMT Supervisor

CLO	Criteria	Description	Marks
CLO3	Clarity of Progress Report	Evaluates how well the report is written, structured, and organized for readability.	
CLO3	Communication with Supervisor	Assesses the level of engagement and responsiveness in discussions with the supervisor.	
CLO4	Professionalism & Work Ethics	Measures adherence to professional behavior, ethical conduct, and teamwork during the project.	

# LAMPIRAN 17

## RUBRIK PENILAIAN KURSUS MDA4908-I

### Progress Report 2 Evaluation (5%) UMT Supervisor

CLO	Criteria	Description	Marks
CLO3	Communication of Report	Evaluates the clarity and effectiveness of conveying project updates in the report.	
CLO4	Work Discipline & Time Management	Assesses how well deadlines and time commitments are managed throughout the project based on given timeline.	
CLO4	Ethical Considerations in Implementation	Ensures ethical concerns, such as responsible AI use and data privacy, are addressed in the project.	

### Presentation Evaluation (10%) UMT Supervisor

CLO	Criteria	Description	Marks
CLO3	Clarity & Structure of Presentation	How well the presentation is structured, its logical flow, and ease of understanding.	
CLO3	Oral Communication & Confidence	Assesses confidence, clarity, and engagement in verbal communication.	
CLO3	Audience Engagement	The ability to interact and maintain the interest of the audience.	
CLO3	Time Management & Pacing	The presentation is well-paced and fits within the allotted time.	
CLO4	Professionalism & Attire	Measures professionalism in terms of attire, behavior, and delivery.	
CLO4	Ethical Consideration in Content & Presentation	No plagiarism, misleading content, or unethical presentation practices.	

# LAMPIRAN 17

## RUBRIK PENILAIAN KURSUS MDA4908-I

### Project Documentation Evaluation (5%)

UMT Supervisor

CLO	Criteria	Description	Marks
CLO5	Report Structure & Organization	Evaluates the document's logical flow and readability.	
CLO5	Writing Clarity & Grammar	Measures the quality of writing, grammar, and professionalism.	
CLO5	Citations & References	Checks if sources are cited properly using an appropriate referencing format.	
CLO5	Ethical Considerations in Documentation	Ensures there is no plagiarism or unethical content.	
CLO5	Use of Visuals (Graphs, Charts, Tables, etc.)	Examines the effectiveness of visuals in supporting the content.	
CLO5	Final Report Formatting & Presentation	Checks overall formatting and adherence to required guidelines.	

# LAMPIRAN 18

## RUBRIK PENILAIAN KURSUS MDA4918-I

### Project Management 1 Evaluation Rubric Log Book (15%) Industry Supervisor

CLO	Criteria	Description	Mark
CLO1	Task Execution & Industry Engagement	Evaluates the student's ability to complete assigned tasks independently and contribute effectively in an industry setting.	
CLO1	Time Management & Punctuality	Assesses the student's ability to meet deadlines and follow schedules in project-related tasks.	
CLO2	Log Book Completeness & Organization	Evaluates the student's consistency in recording industry experiences, challenges, and progress in a structured log book.	
CLO2	Reflection & Learning Documentation	Measures the depth of reflection and learning from industry tasks recorded in the log book.	
CLO3	Problem-Solving & Adaptability in Industry	Assesses the student's ability to solve industry challenges and adapt to new work environments.	

# LAMPIRAN 18

## RUBRIK PENILAIAN KURSUS MDA4918-I

**Progress Report (30%)**  
**Industry Supervisor**

CLO	Criteria	Description	Mark
CLO1	Problem Identification (Scoping)	Identify suitable problem in the industry that can potentially be solved.	
CLO1	Clarity of project scope & objectives (Scoping)	Defines project deliverables, expected outcomes, and alignment with business & data analytics goals.	
CLO1	Feasibility analysis (Scoping)	Evaluates project feasibility in terms of resources, time, and data availability.	
CLO2	Defining project tasks & milestones (Planning)	Breaks project into structured tasks with milestones using Work Breakdown Structure (WBS).	
CLO2	Stakeholder engagement & feedback incorporation (Planning)	Documents stakeholder interactions, feedback, and project adjustments based on recommendations.	
CLO3	Data collection & analysis strategy (Scoping)	Clearly defines methods for collecting, analyzing, and processing data in a structured and logical manner.	
CLO3	Innovation in project planning (Planning)	Demonstrates creative solutions for optimizing project workflow and improving efficiency.	
CLO3	Risk identification & mitigation plan (Scoping)	Identifies potential risks, assesses their impact, and provides mitigation strategies.	
CLO4	Industry compliance & ethical considerations (Scoping)	Ensures the project follows professional ethics, data privacy laws, and industry standards.	
CLO5	Timeline & resource allocation (Planning)	Uses scheduling tools (Gantt charts, resource allocation plans) to manage project progress effectively.	

# LAMPIRAN 18

## RUBRIK PENILAIAN KURSUS MDA4918-I

**Project Documentation (20%)**  
**Industry Supervisor**

CLO	Criteria	Description	Mark
CLO1	Completeness of project documentation (Scoping)	Includes all required sections: problem statement, objectives, scope, methodology.	
CLO2	Project planning & structure (Planning)	Clearly outlines project tasks, dependencies, milestones, and logical workflow.	
CLO3	Quality of technical content & analysis (Scoping)	Ensures accurate, logical, and well-supported project analysis with correct data interpretations.	
CLO3	Risk assessment & project feasibility (Scoping)	Provides relevant ideas on risk analysis, feasibility study, and justifications for project approach.	
CLO4	Industry compliance & standardization (Scoping)	Ensures proper formatting, citations, and adherence to professional documentation standards.	
CLO5	Data-driven decision-making (Planning)	Documentation reflects appropriate use of data analytics tools, decision-making processes, and logical justifications.	
CLO5	Innovation in project execution (Planning)	Demonstrates unique problem-solving techniques, workflow optimization, and efficiency improvements.	
CLO5	Practical application of innovation	Evaluation of the effectiveness and added value of implemented innovative solutions.	

# LAMPIRAN 18

## RUBRIK PENILAIAN KURSUS MDA4918-I

**Presentation (5%)**  
**Industry Supervisor**

CLO	Criteria	Description	Mark
CLO2	Audience Interaction & Responsiveness	Evaluates the student's ability to handle audience engagement and respond to questions effectively.	
CLO2	Oral Communication & Confidence	Assesses the student's ability to speak confidently, engage with the audience, and convey ideas effectively.	
CLO3	Logical Flow & Content Delivery	Measures the smooth transition between topics and the logical sequence of presented ideas.	
CLO3	Clarity & Structure of Presentation	Evaluates how well the presentation is organized and logically structured.	
CLO4	Originality	The project is not a duplicate. It can be either a new project or an extension from a previous project.	
CLO5	Use of Visuals & Data Representation	Measures the effectiveness of data visuals in communicating project findings.	
CLO5	Technical Depth & Explanation	Assesses how well the student explains the technical aspects of the project.	

# LAMPIRAN 18

## RUBRIK PENILAIAN KURSUS MDA4918-I

### Presentation (10%) UMT Supervisor

CLO	Criteria	Description	Mark
CLO2	Oral Communication & Confidence	Assesses the student's ability to speak confidently, engage with the audience, and convey ideas effectively.	
CLO2	Audience Interaction & Responsiveness	Evaluates the student's ability to handle audience engagement and respond to questions effectively.	
CLO3	Clarity & Structure of Presentation	Evaluates how well the presentation is organized and logically structured.	
CLO3	Logical Flow & Content Delivery	Measures the smooth transition between topics and the logical sequence of presented ideas.	
CLO4	Professionalism & Ethical Presentation	Measures adherence to ethical guidelines in content presentation, including proper citation and professionalism.	
CLO5	Use of Visuals & Data Representation	Measures the effectiveness of data visuals in communicating project findings.	

# LAMPIRAN 18

## RUBRIK PENILAIAN KURSUS MDA4918-I

### Presentation (Proposal Defense) (20%) UMT Supervisor

CLO	Criteria	Description	Mark
CLO1	Technical Feasibility & Innovation	Assesses whether the project is technically feasible and includes innovative elements.	
CLO1	Project Scope & Deliverables	Evaluates the clarity and realism of project scope and deliverables.	
CLO2	Persuasiveness & Communication Skills	Measures how effectively the student presents arguments and supports	
CLO3	Proposal Clarity & Justification	Evaluates the student's ability to clearly define the project scope, objectives, and justification.	
CLO3	Problem Statement & Objectives	Measures how well the student presents a well-defined problem statement and structured objectives.	
CLO5	Contribution	Contributes new ideas to solve problems in industry.
